

85_Recyclable and Low Fat Products Easy - Solution

Source - <https://leetcode.com/problems/recyclable-and-low-fat-products/description/>

Running Notes

- find the ids of products that are both low fat and recyclable - so basically I need to satisfy these 2 conditions

```
-- Write your PostgreSQL query statement below
SELECT product_id
FROM Products
WHERE low_fats = 'Y' AND recyclable='Y'
```

- here I have 2 conditions
 - low fat should be Yes
 - recyclable should be Yes
- To filter data based on conditions I use the WHERE command
- To have 2 conditions together and ensure both are satisfied I use AND
